Joining Our Family

We accept admissions from:

- Hospitals
- Social services agencies
- Rehabilitation facilities
- Physicians
- Families

We accept children and young adults from across New York and neighboring states regardless of race, creed, color, national origin, gender, disability, source of payment or income level. We cannot admit individuals who may be detrimental to themselves or others.

For more information or to tour our campus, call **(518) 591-3300** or visit our website at www.stmargaretscenter.org

We provide expert care in a nurturing, home-like setting that every child deserves, so they can be the best that they can be.

Family Stories

Meet Tony

“Tony is a 24 year old resident at St. Margaret’s Center. His needs are severe. At one point, he was hospitalized with pneumonia. Upon his recovery, he returned to St. Margaret’s when I noticed something amazing. He was laughing and going along the sides of the bed with his hands. He knew he was home.”

—David Amico, Tony’s guardian

Meet Sierra

“Our daughter, Sierra, who is now nine years old, suffered asphyxia during birth resulting in severe brain damage. Sierra requires 24-hour skilled nursing care. After unsuccessfully trying to secure nursing support in our home for Sierra, we turned to St. Margaret’s Center, where she was admitted at 7 ½ months of age.”

—Donna & Chris, Sierra’s Parents
